INDIANA IMPACT STORY

Indiana United Ways (IUW), in partnership with First Book and 10 local United Ways in Indiana, leveraged the power of their networks, partnerships, and programs to distribute over 30,000 books and eBooks to children, educators, providers, and programs within multiple high-need areas throughout the state. With the guidance and support of IUW, local United Ways already working in reading readiness and childhood success used First Book as a resource to provide access to high-quality, books aimed at inspiring high-need children, families, and communities to learn and dream, and ultimately set them on a path to succeed in both school and life. Through this partnership, high-need communities received an influx of resources that would not be possible without this opportunity. United Ways and their partners leveraged these resources effectively through a variety of locally tailored programs that address reading readiness, family engagement, educational equity, and childhood literacy.
